

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Peter's Car Wash
DOCKET NO.: 04-26822.001-C-1
05-24807.001-C-1
PARCEL NO.: 08-16-200-012

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Peter's Car Wash, the appellant, by attorney Michael E. Crane with the law firm of Crane and Norcross in Chicago and the Cook County Board of Review.

The subject property consists of a 38,559 square foot parcel of land improved with a one-story, masonry constructed, tunnel-style car wash with 4,900 square feet of building area. The appellant, via counsel, argued that the market value of the subject property is not accurately reflected in the property's assessed valuation as the basis of this appeal.

The PTAB finds that these appeals are within the same assessment triennial, involve common issues of law and fact and a consolidation of the appeals would not prejudice the rights of the parties. Therefore, under the *Official Rules of the Property Tax Appeal Board, Section 1910.78*, the PTAB consolidates the above appeals.

In support of the market value argument, the appellant submitted an appraisal of the subject property with an effective date of January 1, 2004. The appraiser used two traditional approaches

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

to value to arrive at market value of \$565,000. The appraiser determined that the highest and best use to be its current use.

In the cost approach to value, the appraiser reviewed the sales of five comparables to determine a value for the land of \$8.00 per square foot or \$310,000, rounded. Using the *Marshall Valuation Service* as well as other various manuals, the appraiser estimated a replacement cost new for the improvement of \$465,500. The appraiser then determined depreciation from all causes at 40% for a value of \$279,300 for the improvement. The depreciated value of the site improvements, \$10,000, and the value of the land was then added in for a final value under the cost approach of \$600,000, rounded.

Under the sales comparison approach to value, the appraiser utilized four suggested comparable sales located in the same market as the subject. The comparables consist of one-story, masonry, car wash buildings. The buildings range: in age from nine to 24 years; in size from 3,600 to 6,000 square feet of building area; and in land to building ratio from 2.67:1 to 6.40:1. The properties sold from January 2001 to September 2003 for prices ranging from \$325,000 to \$700,000 or from \$76.74 to \$118.06 per square foot of building area. The appraiser made several adjustments to the comparables. Based on this, the appraiser determined the subject property's value using the sales comparison approach to be \$565,000 rounded.

In reconciling the approaches to value, the appraiser believed the sales comparison provided the most reliable value estimate and the cost approach is a reliable indication for a final value for the subject as of January 1, 2004 of \$565,000.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's total assessment was \$274,020. The subject's assessment reflects a market value of \$721,105 using the level of assessment of 38% for Class 5A property as contained in the Cook County Real Property Assessment Classification Ordinance. The board also submitted raw sale information for four properties suggested as comparable to the subject. These comparables are all located within the subject's market and are improved with one-story, masonry constructed, car wash buildings. These buildings ranged in age from nine to 11 years and in size from 1,000 to 5,705 square feet of building area. The comparables sold from August 2002 to June 2005 for prices ranging from \$225,000 to \$800,000 or from \$140.23 to \$271.15 per square foot of building area. As a result of its analysis, the board requested confirmation of the subject's assessment.

Docket No. 04-26822.001-C-1
05-24807.001-C-1

In rebuttal, the appellant submitted the property characteristic printouts for six of the board of review's sales comparables.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

When overvaluation is claimed the appellant has the burden of proving the value of the property by a preponderance of the evidence. National City Bank of Michigan/Illinois v. Illinois Property Tax Appeal Board, 331Ill.App.3d 1038 (3rd Dist. 2002); Winnebago County Board of Review v. Property Tax Appeal Board, 313 Ill.App.3d 179 (2nd Dist. 2000). Proof of market value may consist of an appraisal, a recent arm's length sale of the subject property, recent sales of comparable properties, or recent construction costs of the subject property. 86 Ill.Admin.Code 1910.65(c). Having considered the evidence presented, the PTAB concludes that the evidence indicates a reduction is warranted.

In determining the fair market value of the subject property, the PTAB finds the best evidence to be the appellant's appraisal. The appellant's appraiser utilized the three traditional approaches to value in determining the subject's market value. The PTAB finds this appraisal to be persuasive for the appraiser: has experience in appraising; personally inspected the subject property and reviewed the property's history; estimated a highest and best use for the subject property; utilized appropriate market data in undertaking the approaches to value; and lastly, used similar properties in the sales comparison approach while providing sufficient detail regarding each sale as well as adjustments that were necessary. The PTAB gives little weight to the board of review's comparables as the information provided was raw sales data with no adjustments made.

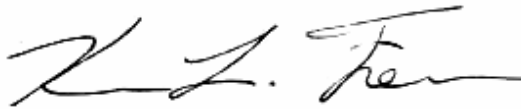

Therefore, the PTAB finds that the subject property contained a market value of \$565,000 for the 2004 assessment triennial. Since the market value of the subject has been established, the Cook County Real Property Classification Ordinance level of assessments for Cook County Class 5A property of 38% will apply. In applying this level of assessment to the subject, the total assessed value is \$214,700 while the subject's current total assessed value is above this amount at \$274,020. Therefore, the PTAB finds that a reduction is warranted.
